PAI 600

"New Jersey will break one of two trends with this election.

Voters have elected a governor from the opposite party of the sitting president in every election from 1989 to 2017 — good news for Democratic Rep. Mikie Sherrill.

But no party has held the New Jersey governorship for more than three consecutive terms since the 1960s, which bodes well for Republican nominee Jack Ciattarelli."

New Jersey Counties

Source: R scripts

When AP called the race, Sherrill had a double-digit lead and was outrunning Harris across the entire state
